TRAFFIC ACCIDENTS

Explanation:

Hit and Run Crashes – A crash resulting in colliding with a person, their personal property (including their motor vehicle), or a fixture, and failing to stop and identify oneself afterwards.

Accident Within Construction Zone – A crash occurring in a posted construction zone.

Accident Involving Police on Duty - A crash where one of the vehicles involved in the accident was a police officer on duty.

Accident Involving Government Property - A crash involving damage to government property.

Reported Accidents – Total number of accidents that resulted in injury or death of any person, any damage to government owned non-vehicle property to an apparent extent of \$200 or more, or total damage to property owned by any one person to an apparent extent of \$1,000 or more.

Accident Involving Fatal Injury - An injury received in a traffic crash that results in death within thirty (30) days of the crash.

Accidents that Involved Injuries – A motor vehicle traffic crash involving one or more persons who were physically harmed or who complained of physical harm but were not killed.

Accidents that did not Involve Injuries – A motor vehicle traffic crash that resulted in no apparent injury to one or more persons involved.

Type of Units Involved in Accidents – A way of identifying a load vehicle or a pedestrian involved in a crash. There are seven general categories of unit type:

Auto - Passenger car, police car, ambulance, etc.

Truck - Utility truck, straight truck, fire truck, truck tractor (not attached, semi attached, double bottom), motor home.

Motorcycle - Motorcycle, moped, motor scooter, etc.

Bus - School bus, passenger bus, etc.

Equipment - Farm tractor and other self-propelled farm equipment, other working machines (e.g. forklift, grader, end loader, etc.), railroad train, snow plow, snowmobile, all-terrain vehicle, and miscellaneous.

Bicycle - Every non-motorized device propelled by the feet acting upon the pedals including unicycles, bicycles, tricycles, etc.

Pedestrian - Any person afoot (or using assistive devices). This includes someone getting on or off a vehicle.

Number of People Injured In Accidents – An injury, other than fatal, that prevents walking, driving, or performing other activities that were performed before the crash or an injury that is not evident at the scene but that is claimed by the

individual or suspected by the law enforcement officer or an injury other than fatal or incapacitating that is evident at the scene which includes known symptoms.

PROPERTY DATA

Explanation:

Foreclosed Property - Properties, as defined by the City of Milwaukee Department of City Development, identified as being foreclosed.

City Owned Tax Foreclosed Properties - Parcels conveyed since January 1, 2006 with a conveyance type of "sheriff deed," and no conveyance fee.

Bank Owned Foreclosed Properties - Parcels conveyed since January 1, 2007 with a conveyance type of "judgement - in rem action."

Non Owner Occupied - Data set is determined by comparing the property address to the owners mailing address, if these two do not match the property is consider non-owner occupied

Tax Delinquent - Data set contains a listing of parcels where the property tax has not been paid by that years deadline.

Permits - Data set includes all current construction, plumbing and electrical permits for the City of Milwaukee.

Property Service Requests - Data set represents the building inspection requests for the City of Milwaukee.

Parcels- Outline of property.

Residential Assessed Value - Data set represents the assessed value of each residential parcel in the City of Milwaukee.

Neighborhood Strategic Planning Area - 18 Neighborhood Strategic Planning Areas (NSP) in the City of Milwaukee.

Neighborhood - Factors used to define neighborhood areas are as followed: Subdivisions, major streets, physical and natural barriers, community group boundaries, housing styles, historic areas and residents' opinions. Creating Neighborhoods gives residents an opportunity to develop a sense of place, pride and belonging in relation to where they live. Neighborhood boundaries are defined by the City of Milwaukee Department of City Development.

DNS VIOLATIONS

Explanation:

Commercial - The Commercial enforcement Section is responsible for enforcing the building codes as they apply to all commercial businesses. Existing buildings are inspected for compliance with fire codes and building safety codes.

Residential - The residential section inspects all residential properties including 1 and 2 family homes, condos and apartments. It enforces the Milwaukee Code of Ordinances on these properties as well as local, state and national fire codes on apartments. It responds to complaints, makes annual fire inspections on apartment buildings and provides support for neighborhood organizations.

Condemnation - Due to neglect or age buildings fall into a state of disrepair and someone has to take care of the problem. If the owner fails to act, dangerous and unsound structures are demolished by the City and typically the costs are added to the property tax bill. This not only protects the neighbors, but help protect property values and removes a blighting condition.

Construction - After a permit has been approved by the Plan Examination Section, work may begin on a project. During the different phases of a building project, various inspections are required. The Construction Section is responsible for these required inspections.

Electrical - Electrical inspectors check the installation and modification of a building's electrical facilities. This includes, but not limited to all wiring and equipment associated to power, lighting, control, communication and life safety systems for all buildings

Enforcement - The enforcement section, better known as the court section, is charged with taking unresolved orders and citations to correct violations to court. Typically this group is responsible for serving summons, verifying property conditions prior to court and reviewing the paper work required by the court.

Nuisance - deal with situations related to the use of land or a building that may impact the health of neighbors and the community. They deal with inspectional services from asbestos removal to zoologicals in pool water. Among the primary services they deal with are nuisance garbage in yards, noise & light pollution, dangerous or nuisance animals, asbestos removal monitoring, pool inspection and licensing for animals.

Plumbing - Plumbing inspectors check outside all storm sewers, sanitary sewers, water services, well and private sewerage systems. Inside the building or structure we inspect; storm and sanitary building drains, waste and vent

pipng, water distribution piping, plumbing fixtures, equipment and appliances.

Zoning - The City of Milwaukee regulates what kind of activity goes on in various neighborhoods. Each parcel of the City is identified as being suitable for a certain type of residential or commercial use. The Department of Neighborhood Services investigates illegal or unpermitted usages.

2000 CENSUS TRACT DATA

Explanation:

Total Population 2000 - All people, male and female, child and adult, living in the requested district area.

Percent of Population That is Minority – All people who consider themselves Black, Hispanic, American Indians/Alaska Native or Asian and Pacific Islander.

Median Age - The age classification is based on the age of the person in complete years as of April 1, 2000.

Percent Households Headed By Females - The share of female-headed householder families, no husband present, who have related children under 18 years of age.

Percent Persons 25 or Older That Are High School Graduates - Include people whose highest degree was a high school diploma or its equivalent, people who attended college or professional school, and persons who received a college, university, or professional degree. Persons who reported completing the 12th grade but not receiving a diploma are not high school graduates. These data include only persons 25 years old and over. The percentages are obtained by dividing the counts of graduates by the total number of persons 25 years old and over.

Median Household Income, 1999 - Is the sum of money income received in the calendar year by all household members 15 years old and over, including household members not related to the householder, people living alone, and other nonfamily household members. Included in the total are amounts reported separately for wage or salary income; net

Community Mapping Metadata

self-employment income; interest, dividends, or net rental or royalty income or income from estates and trusts; Social Security or Railroad Retirement income; Supplemental Security Income (SSI); public assistance or welfare payments; retirement, survivor, or disability pensions; and all other income.

Percent Population Below Poverty, 1999 - Families and persons are classified as **below poverty** if their total family income or unrelated individual income was less than the poverty threshold specified for the applicable family size, age of householder, and number of related children under 18 present. The Census Bureau uses the federal government's official poverty definition. If the total income of a person's family is less than the threshold appropriate for that family, then the person is considered poor, together with every member of his or her family. If a person is not living with anyone related by birth, marriage, or adoption, then the person's own income is compared with his or her poverty threshold.

Percent of Housing Units That Are Owner Occupied - The percentages are obtained by dividing the number of housing units by the number of housing units which are owner occupied.

Percent Housing Units Constructed Before 1940 - The percentages are obtained by dividing the number of housing units by the number of housing units built before 1940.

Population Density - The # number of inhabitants per square mile of land area. This figure is derived by dividing the total # number of residents by the # number of square miles of land area in the specified geographic area.

Percent Change in Population 1990-2000 - Difference in total population from 1990 to 2000.

Percent Hispanic - Those people who classified themselves in one of the specific Spanish, Hispanic, or Latino categories listed on the Census 2000 questionnaire - "Mexican, Mexican Am., Chicano," "Puerto Rican", or "Cuban"-as well as those who indicate that they are "other Spanish/Hispanic/Latino." Persons who indicated that they are "other Spanish/Hispanic/Latino" include those whose origins are from Spain, the Spanish-speaking countries of Central or South America, the Dominican Republic or people identifying themselves generally as Spanish, Spanish-American, Hispanic, Hispano, Latino, and so on.

HEALTH

Explanation:

Lead Rates - Percent of tests which revealed high levels of lead rates.

Source: Nonprofit Center of Milwaukee & City of Milwaukee Health Department.

Validity: 1995-1999

2005 Birth Density - Density layer showing the location of birth mother. This is only intended for illustration purposes.

Percentage Low Birth Weight - Percent of infants under 2500 grams.

Percentage Very Low Birth Weight - Percent of infants under 1500 grams.

Percentage Prenatal Care during Pregnancy - Initiation of prenatal care during first trimester of pregnancy.

Percentage Smoking During Pregnancy - Percentage of mothers that smoked during pregnancy.

Source: City of Milwaukee Health Department

Validity: 1993-1999

IMAGERY

Explanation:

Orthophoto - An aerial photograph that has been processed (via a scanning and rectification process) in such a way as to eliminate image displacement due to camera tilt and terrain relief, so that it represents every object as if viewed directly from above, as in a map which is usually in an orthographic projection. An orthophoto combines the visual properties of a photograph with the geometric qualities of a map and offers a realistic visualization of the landscape.
